**"HE WHO SAVES JUST ONE LIFE IN ISRAEL . . .
IT IS AS IF HE HAS SAVED AN ENTIRE WORLD."
(THE TALMUD)**

ISRAEL'S MOST PRECIOUS RESOURCE:

ITS CHILDREN

Each child we help bring into world can multiply the people of Israel a hundredfold. For the families who turn to Just One Life for help, we are the source of caring and concern: a supportive voice in a stressful world. We have taken upon ourselves to support and encourage the birth of Jewish children.

Please join us in building the future.

For many young expectant mothers in Israel experiencing financial and emotional crisis, another pregnancy can often seem like too much to bear. Just One Life-Nefesh Achat B'Yisrael-helps mothers realize their dream of a new baby by helping them through the economic and psychological problems that often accompany an unanticipated, untimely or medically at-risk pregnancy.

HOW JUST ONE LIFE PROVIDES SOCIAL SERVICES & FUNDING

Just One Life helps relieve burdens before and after the baby arrives in a number of ways. First, the needs of each family are evaluated by our staff of professional social workers to determine what we can do to help. Depending on the individual plan, a family will receive a monthly subsidy and counseling to relieve its stress. Most important, this mother now has an opportunity to spend these months preparing emotionally and financially to receive the new addition to her family.

"My baby would not have been born without Just One Life's help . . ."

MORE THAN 10,000 PRECIOUS BABIES

With the help of concerned people such as you, Just One Life has played a vital role in the birth of over **10,000** children in Israel. Expectant mothers, who qualify, receive aid in the equivalent of **\$1800** throughout their pre- and post- natal period.

Consider that in Israel, each year, tens of thousands of mothers - many of whom would like to have their children - terminate their pregnancies before reaching full term. Clearly there are so many more families Just One Life can help and many more children can be born. But we need your help to make the miracle of childbirth a reality.

The wanton acts of terror and the war in Israel have increased our caseload substantially. We offer vital assistance to those expectant mothers and families who have lost their jobs and have been physically debilitated by the situation.

Over the past 18 years, more than **10,000** Israeli Jewish mothers have benefited from the services provided by the professional social workers of Just One Life. They have been give the opportunity to have the babies they so desire.

Just One Life receives referrals from social workers and doctors from more than 140 cities, villages, & town throughout Israel.

- **JUST ONE LIFE** enables women to make a free and personal choice about continuing their pregnancies
- **JUST ONE LIFE** provides short-term and long-term support and care for the women experiencing unexpected, or medically at-risk pregnancies
- **JUST ONE LIFE** provides on-going support throughout the pregnancy and several months following the birth.
- **JUST ONE LIFE** offers individual counseling, support groups and workshops for new and expecting mothers
